

## NEED UNDERGROUND DUCT? THINK BLUE DUCT!

February 2011

## AIR PRODUCTS PROUDLY INTRODUCES...

# THE BLUE DUCT™

## IT'S SAFE TO GO BACK UNDERGROUND

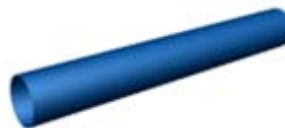

### COMPLETE ENGINEERED UNDERGROUND AIR DUCTING SYSTEM

The **Blue Duct** is a complete engineered underground air duct system made from a durable eco friendly High Density Polyethylene. Our system is air and water tight, insulated to an R-10 and fast to install – saving ½ the time! It replaces problematic pvc coated spiral and fiberglass duct. It bears U.L. label-181 sec. 11 no mold growth. It's non-toxic, corrosive resistant and lasts for decades. **Why take risks?** Let us demonstrate to you how your next design should go underground with “**THE BLUE DUCT**” ... and another plus- due to low VOC, and recyclable materials, BlueDuct may help to contribute for LEED points!!

Watch the demonstration video below to see how quick and easy blue duct can be installed in your next project!

### PRODUCT BENEFITS

- ICC PMG1023, IMC, UMC, IRC
- BELOW FLOOD APPROVAL LC 1014
- NSF PROTOCOL P374/STORK 30160 R-10
- UL-181 SECTION 11 (NO MOLD GROWTH)
- LOS ANGELES, CALIFORNIA APPROVED
- CALGARY, CANADA APPROVED
- LEED QUALIFIED MATERIAL
- SMALL CARBON FOOT PRINT
- COMPLETE ENGINEERED SYSTEM
- NON-TOXIC & CORROSION RESISTANT
- IMPENETRABLE TO RADON GAS
- MEETS ALL SMACNA SEAL CLASSES
- SELF INSULATED @ 95% EFFICIENCY
- INSTALLS IN LESS TIME
